After ARISE 2019, my dream is ...

To make diversity boring

- After next 1st congress
- Japanese go to International
- Japan-Japan

to see a stronger global network in Asia

- Students can share more than 3 times, so they can get in the other design
- opportunity social students can be stronger they want to go and connect to the local

Building ESN-Vietnam with many countries along the meeting today

- Build up a student organization especially local in Asia

After ARISE 2019, my dream is to be able to make a change by implementing something in some project (local)

- to local outside as well as in my university, but I noticed how important of education/intercultural education

After ARISE 2019, my dream is to get a job (full-time) related to student exchange program to work for university project in university after I graduate

After ARISE 2019, my dream is to be able to make a change by implementing something in some project (local)

- to local outside as well as in my university, but I noticed how important of education/intercultural education

After ARISE 2019, my dream is to be able to make a change by implementing something in some project (local)

- to local outside as well as in my university, but I noticed how important of education/intercultural education

Free movement of people / students

- (ex: student exchange program, etc.)

more and more

- ARISE students go to study in other ARISE countries and learn the local language of their host community

more cooperation between Asia and Europe in the field of student mobility and internationalization at home

to see all of you again at another meeting

To see a stronger global network in Asia

Free movement of people / students

- (ex: student exchange program, etc.)

“My dream is to enhance the connection between local students and exchange students and to make their time more meaningful.”

“My dream is to be able to make a change by implementing some project with local students and with my university.”

“To see all of you again at another meeting”

“To see a stronger global network in Asia”

“Free movement of people / students”

What is coming next?

What is coming next?

ARISE 2019 follow up

Community among participants

Capacity building online

Keep on sharing expertise

Further development of pilot project

Establishment of a working group

In-person meetings and training events

**Working group meeting
1/year**

**Training event
1/year**

How can you get involved?

Making this pilot project a reality

**Hosting training events
and meetings**

**Advice for quality
assurance**

Financial support

Thank you for your attention!
