

## DEMAND – WS 1

- Implementation of NVEQF is demand driven
  - Limited involvement of business and industry
- **Holistic approach (interdependence between different stakeholders)**

- Necessity of stakeholders' coordination in terms of consultation
  - Focus on qualifications which have an impact on the labour market
- To promote:
- Permeability, reliability, Quality Assurance and VET
- **To strengthen mobility and transparency**

Implementation of NQFs is a long-term approach

- special competences to steer the process is needed
  - commitment of all levels is necessary (public?)
- **To create a common understanding**

- Inclusion of formal and non-formal learning as well as of prior learning
- **To enhance the reputation of VET at national and regional level**
