ASEM (Asia European Meeting), an information-sharing forum among Asian and European countries, launched ASEM Work Placement Pilot Programme (ASEM-WP), a work-based experience mobility program that enables participating higher education institutions to exchange students abroad for two to six months period of work placement or internship in a designated partner company. The participating countries in this network include Germany, Belgium, Brunei Darussalam, Thailand and Indonesia. In the case of Indonesia, ASEM-WP allows participating Indonesian higher education to send students for an internship to Germany and Belgium as well as receiving students from Germany and Belgium for an internship in Indonesian-based national or multinational companies.

The Indonesian Ministry of Research and Higher Education invited eleven participating universities to collaborate with Indonesian Chamber of Commerce (KADIN) and Association of Indonesian Entrepreneurs (APINDO) to conduct this AWP programme. The universities include Universitas Indonesia (UI), Gadjah Mada University (UGM), Bandung Institute of Technology (ITB), Surabaya Institute of Technology (ITS), Bogor Institute of Agriculture (IPB), Padjadjaran University (UNPAD), Sebelas Maret University (UNS), Airlangga University (UNAIR), Diponegoro University (UNDIP), Brawijaya University (UB) and Bina Nusantara University (UBINUS).

Program Objective:

Increasing student mobility among Asian and European countries

Programme Benefits:

1. > To students: an opportunity to apply acquired knowledge and skills to real-life in intercultural setting; an orientation to the business environment, operations and procedures in an international environment; an experience supporting cross-cultural understanding, skill and competencies.
2. > To higher education institutions: an orientation to high quality education and training by providing students with opportunities to gain work experience in international setting that supports their professional and personal growth; increasing global reputation and recognition; establishing international network; and increasing students international mobility activities and number.
3. > To companies: the integration of smart, young talents from an academic environment with a different cultural background into an organisation can provide fresh ideas and stimulating viewpoints; hosting a student can be a valuable contribution to an organisation, enabling its staff to develop their skills in supervisory, supporting and training roles in a cross-cultural setting; the intern students can act as "goodwill ambassador" for companies to help build international networks.

Students Guideline

How to Apply for Indonesian Students or Foreign Students:

Application for ASEM Work Placement Pilot Programme is made through University Business Network (UBN) Focal Point in every participating country. Indonesia's Focal Point is Universitas Indonesia as UBN Indonesia.

Selection Criteria for Indonesian students:

1. Students currently in 5th - 8th semester
2. Excellent in English, both oral and written (Min: TOEFL 500, IELTS 6)
3. Willing to be placed in Germany or Belgium
4. Has good understanding of living in different culture
5. Has minimum GPA 3.25 (out of 4.0 scale)
6. Passes interview selection
7. Passes health examination
8. Should write an expression of interest
9. Should join departure training conducted by sending university
10. Should provide parent's permit
11. Submits curriculum vitae

REGISTER HERE: <http://goo.gl/forms/R5ZSBhl0e9>

How Indonesian intern candidates find a host company in Germany and Belgium

UBN Focal Point in Indonesia will actively engage with the companies in its network to support and to match the internship programme. UBN Indonesia will provide information about internship opportunities in Germany and Belgium based on the given information by UBN in Germany and Belgium.

Indonesian higher education institutions are to complete a form containing information on names of the intern candidates, personal information, major and the desired host company. Upon completion, the institutions send it to UBN Indonesia for further processing in UBN in Germany and Belgium.
