SURVEY REPORT DIGITALLY ENHANCED LEARNING AND TEACHING IN EUROPEAN HIGHER EDUCATION INSTITUTION

Michael Gaebel, Thérèse Zhang, Henriette Stoeber
and Alison Morrisroe
January 2021

TRENDS 2018

Learning and teaching in the European Higher Education Area

By Michael Gaebel & Thérèse Zhang

Co-authors:
Luisa Bunesco
Henriette Stoeber

#EUALearnTeach work in progress over a box of 🇪🇺 chocolates: room 262
reflect on recommendations on digital competences of teachers:

- 📊 DC as part of an integrated innovation vision
- 🏛️ In an integrated, institutional environment
- 🤖 As a specific part of teaching

- January 2020 - April 2023
- Objectives:
 - Strengthening strategic approaches for digitally enhanced learning & teaching (DELT) at European HEIs
 - Encouraging self-reflection and capacity building
- The project provided:
 - Comparative data on the state of play of digitally enhanced learning and teaching at European HEIs;
 - A review of self-assessment instruments for improving the institutional digital ecosystem;
 - The organisation of two cycles of thematic peer groups;
 - A workshop series on self-assessment instruments and a self-paced training resource (MOOC on FutureLearn).

MAGNUS
UNIVERSITY
MCMXXII

Digital learning: Even before the pandemic...

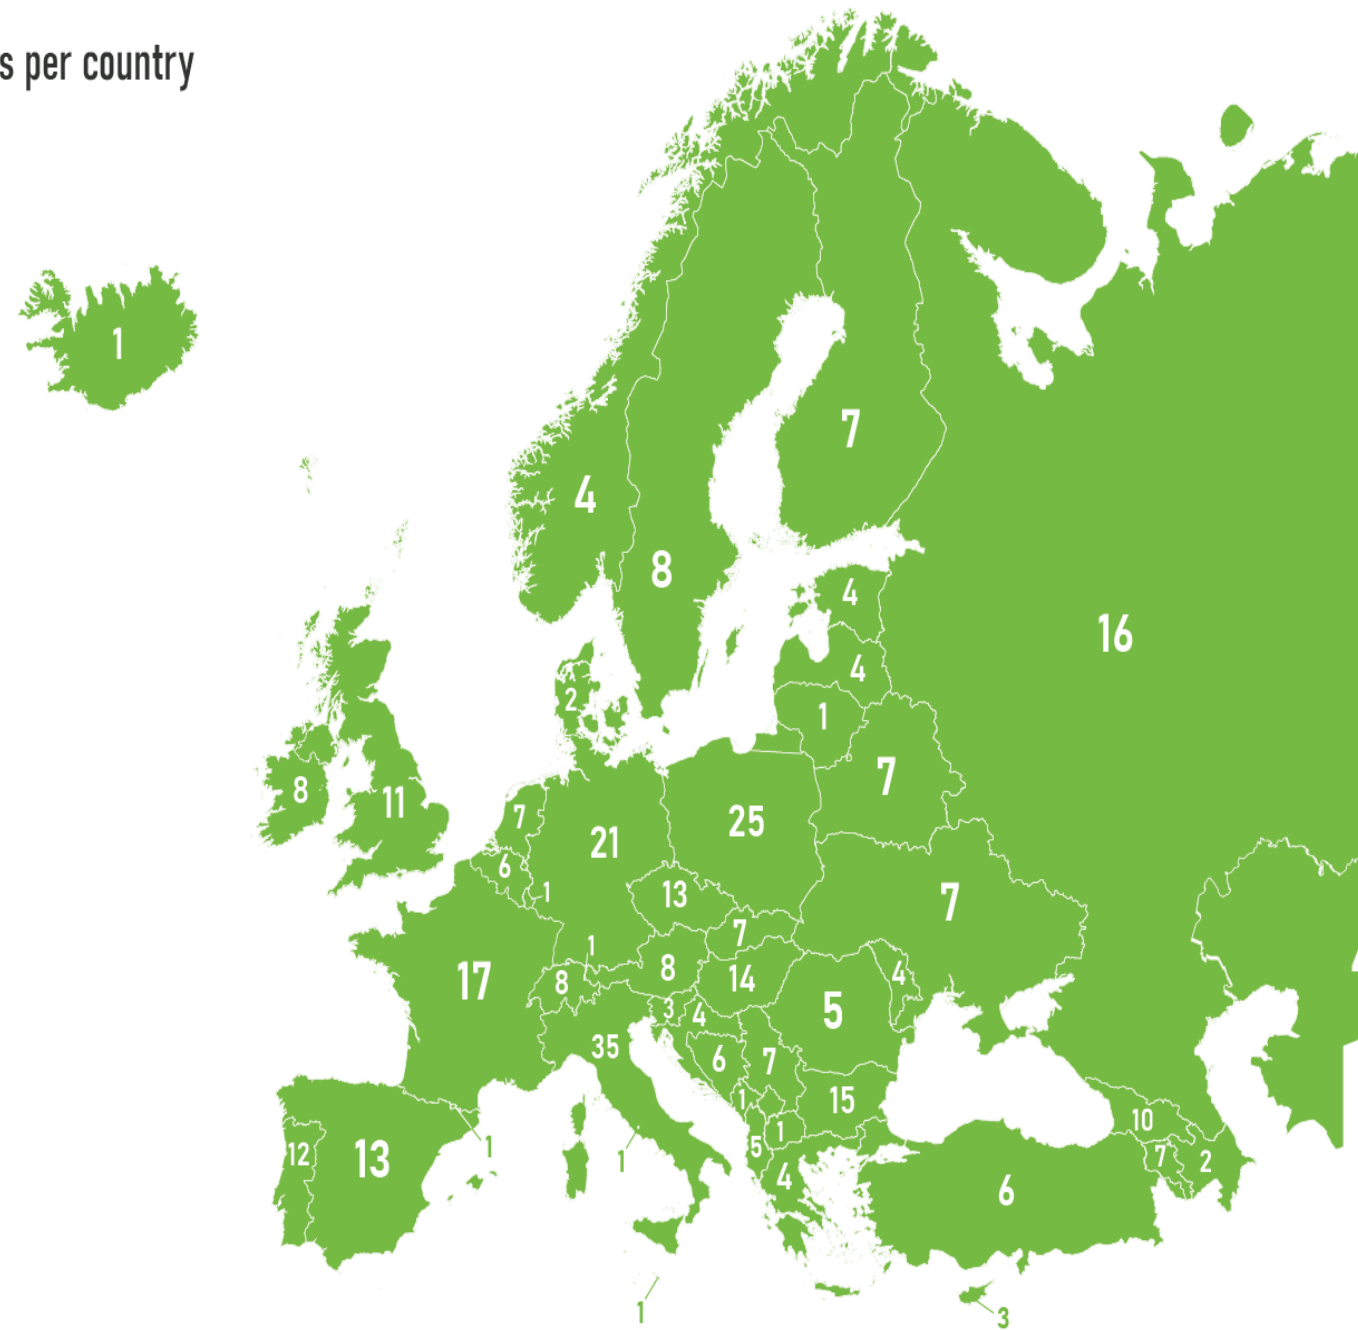

Trends 2018. Q25, Q29

Increased acceptance/more strategic approaches to e-learning	87%
Boosted education provision through e-learning	74%
Blended learning used in regular teaching	36% fully 51% to some extent

- Survey to institutional leadership
- Data collection: April to June 2020
- Pre-Covid 19 situation
- 368 responses – mainly universities
- 48 European countries
- Longitudinal data – 2014 E-learning study, Trends reports (2015 and 2018)

** OTHER ** = 4

Shift towards more institutionalised approaches

- 70% - Digital learning as a strategic priority
- 88% - Institutional strategies (2014: 63%) 
- Support & coordination becomes centralised & shared across the institution
- Internal quality assurance – 53% (2014: 23%)
 - but 41%: “under discussion”
- Infrastructure & support – but not for all students & staff

No strategy in place - 12%

- Northern Europe 11%
- Western Europe 10%
- Southern Europe 9%
- Eastern Europe/Central Asia 11%
- Eastern EU 15%
- Balkans 10%

Digital library access:

90%

Enhancement due to crisis

65%

Responsibility for digital learning support & coordination is

shared between central and faculty based units

2014

40%

2020

48%

Central unit

35%

45%

Faculty or department level only

12%

7%

Top 3 impacts

Internationalisation	Past 5 years	Next 5 years
Transforms inter-institutional collaboration	64%	86%
Outreach to international students	57%	85%
Virtual mobility	25%	75%

80%

- It brings benefits to the student experience

73%

- Students have a positive attitude towards it

Top 3 barriers	Top 3 enablers	Top 3 Measures to move ahead
<ul style="list-style-type: none">Lack of staff resources (51%)	<ul style="list-style-type: none">Proactive participation of staff and students (74%)	<ul style="list-style-type: none">Peer exchange within the institution
<ul style="list-style-type: none">Lack of external funding opportunities (40%)	<ul style="list-style-type: none">Professional development and training (59%)	<ul style="list-style-type: none">National or international training opportunities
<ul style="list-style-type: none">Difficulty to devise a concerted approach for the entire institution (36%)	<ul style="list-style-type: none">The institution's strategy (43%)	<ul style="list-style-type: none">Collection and analysis of institutional data
<ul style="list-style-type: none">Lack of staff motivation (34%)	<ul style="list-style-type: none">Major investments in equipment and infrastructure (39%)	<ul style="list-style-type: none">Exchanges & collaboration organised by the rectors' conference/ university networks

- **Blended learning** is the most popular delivery mode (75%), followed by short online courses (50%) and fully online degree programmes (36%)
- 25% of institutions engage in virtual student mobility

Delivery modes

Changes due to Covid-19

Lifelong Learning - developments and perceptions

50% offer short, non-degree
online courses

- **Target: lifelong learners**
- **Most frequent online offer (more than MOOCs)**
- **Half of institutions \leq 10 courses**

Government

- fast response to changing learning needs/skills needs
- flexible and inclusive learning paths
- high quality provision
- diversity of providers
- regulatory power
- Costs?

EU: A European approach for micro-credentials

- DG EAC & DG Employment: flexible, skills for a changing society & economy
- Work Programme 21 / European Education Area/ Digital Action Plan
- Non-legislative initiative on 'European approach for micro-credentials'

HEI

- a way to provide targeted and specialised training
- increase their visibility and reputation
- Response to students, alumni,, labour markets' demands
- experiment with new pedagogies and technologies
- **Coordinated initiatives among HEI**

What are the benefits of micro-credentials?

2020 Rome Communiqué of the Bologna Process: “explore how and to what extent these **smaller, flexible units, including those leading to microcredentials**, can be defined, developed, implemented and recognised by our institutions using EHEA tools.”

Employers' perspective

- specific skills of prospective/ actual employees
- may serve as on-job training
- high quality at low cost

Learners' perspective

- Fast, focussed and flexible learning
- Upgrade, specialisation, reorientation
- Entry/ part of a degree programme

Open issues and concerns

- How fit existing frameworks are
 - ✓ Quality assurance and recognition
 - ✓ e.g. a lot of policies relating to open, digital learning when the pandemic hit
- Still looking for ways to address academic integrity, ethics, security and privacy policies in new contexts
 - ✓ Data security and protection, data ownership, risks of algorithms, AI
 - ✓ Need for action at institutional, national, European level

Embedding digitally enhanced learning in policies and measures

SURVEY REPORT

Digitally enhanced learning and teaching in European higher education institutions

Yes

Under development

I do not know

Yes, but to be improved

No

Q11: Is digitally enhanced learning taken into account in your policies and measures for: (please select one option for each item)

n=366

Open issues and concerns (2)

- Finding a common definition across the institution (or nationally) on key modes can be difficult: what does « blended », « hybrid », etc., mean and entail
- Digital skills and competences // overall question of training for teaching
- Staff resistance and motivation should not be underestimated: participation to decision-making, « teaching fatigue » following the pandemic:
 - Institutional approaches vs academic, teaching freedom
 - Teaching still very seen as an individual, borderline private activity

Gradual transformation over the past years

- Higher acceptance, more mainstreamed practice, gradual exploration and capacity building
- “It is not (only) about technology; it’s about pedagogy”

Outlook

2020-2021 pivotal for online and blended education

- Sustainable changes beyond emergency provision?
- From “blended” to a more comprehensive approach (hybrid, hi-flex)?
- How would this change HEIs and their cooperation with other HEIs and other parties? More shared and networked approaches? Capacities to be improved?

Outlook (2)

The lifelong learning mission

- Short, non-degree, more flexible
- Is all/any learning « lifelong »? How does digitally-enhancement learning contribute to this?
- Standard? Risk of overregulation vs open and productive approach to respond to learning needs and skills demand?

Implications for learning and teaching // for the institutional model, mission and values

- Institutional and academic sovereignty and autonomy
- Higher education as a public responsibility
- Recognition of the university as social and cultural place

Thank you for your attention

Micro-credentials: Context – „Skills Gap“

European Commission: Achieving the European Education Area by 2025

“A growing number of adults, with or without a higher education degree, will need to reskill and upskill through more flexible alternatives than a full degree in order to overcome the gap between the learning outcomes of their initial formal qualifications and emerging skills needs in the labour market.”

Micro-credentials: Developments at European Level

European Skills Agenda, 1.7.2020

European Education Area, 30.9.2020

Digital Education Action Plan, 30.9.2020

EHEA Rome Ministerial Communiqué, 19.11.2020

- “We ask the BFUG to explore how and to what extent these **smaller, flexible units, including those leading to micro-credentials**, can be defined, developed, implemented and recognised by our institutions using EHEA tools.”

EU Council Recommendation „European Approach to Micro-credentials“, 16.06.2022

Micro-credentials: EU Council Recommendation

Definition and Characteristics

Definition

„‘Micro-credential’ means the record of the learning outcomes that a learner has acquired following a small volume of learning. These learning outcomes will have been assessed against transparent and clearly defined criteria. Learning experiences leading to micro-credentials are designed to provide the learner with specific knowledge, skills and competences that respond to societal, personal, cultural or labour market needs. Micro-credentials are owned by the learner, can be shared and are portable. They may be stand-alone or combined into larger credentials. They are underpinned by quality assurance following agreed standards in the relevant sector or area of activity.“

Standard elements

- Learning outcomes
- Workload (in ECTS credits)
- Level (NQF, EQF, QF-EHEA)
- Type of assessment
- Type of quality assurance

Principles

- Quality
- Transparency
- Learning pathways
- Recognition
- Learner-centered

Micro-credential ecosystem

- Micro-credentials in formal learning environments
- Micro-credentials in non-formal and informal learning environments
- Quality and transparency
- Partnership between involved actors

Survey – Micro-credentials at German Higher Education Institutions

Workload

What is the range of your university's micro-credential offerings?

Response group: HEI which offer MC,
(no multiple answers)

To what size should the term "micro-credentials" refer to?

Response group: all HEI
(no multiple answers)

Survey – Micro-credentials at German Higher Education Institutions

Regulation

Please assess the need for regulation of micro-credentials in the areas mentioned.

Response group: all HEI
(Response scale 1-5: 1 = no need for regulation, 5 = significant need for regulation)

Survey – Micro-credentials at German Higher Education Institutions

Fields of application

In which context micro-credentials are offered?

Response group: HEI which offer MC
(Multiple answers were possible))

How are you evaluating the use of micro-credentials in the following areas?

Response group: all HEI
Response scale 1-5: 1 = not useful at all 5 = very useful)

Survey – Micro-credentials at German Higher Education Institutions

Internationalisation

Do you consider micro-credentials - in general - to be a useful accompanying instrument for internationalization or the promotion of mobility?

Table of Contents

- I. Background
- II. Short Survey: Micro-credentials at German Higher Education Institutions
- III. Case Study: Micro-credentials in Internationalisation**

Example: DAAD-funded Project „Digital Mobil @ HSBI“

Not all students have the chance
to *travel* abroad easily to gain
international experience

Solution

Combine
digitalization and
internationalization

Example: DAAD-funded Project „Digital Mobil @ HSBI“

Outgoing offer

- More than 100 courses at 2 partner universities
- Transcript of Records
- Recognition of credits
- Refund of fees (USA)

Incoming offer

- About 10 courses per semester
- No fees
- Tutorials and personal onboarding support
- Transcript of Records

HSBI
Hochschule
Bielefeld
University of
Applied Sciences
and Arts

Example: DAAD-funded Project „Digital Mobil @ HSBI“

Experiences

Especially popular in **work-integrated study programs**

>30 incoming students
since August 2020

Not all students ask for a
recognition of credit points,
but all think that a **certificate** is
important

>50 outgoing students
from Bielefeld UAS since
August 2020

High demand of
business courses

Some partner
universities were
not able to offer courses

HSBI

EDUCATION
— is never —
END

Learning is automatic, i.e. we see things, we observe them and then learn something new through our experiences in our day to day life. So, it is a continuous process and also a life long one. Learning can be intentional or unintentional, conscious or unconscious, for better or for worse.
